OUR VISION

Coreks is a leader in electronical scale production and supply in Turkish market. We, TÜRKTER, are a company of 28 years and own more than %22 of this market. In addition, we export our own electronical scales to more than 10 countries. We are happy to provide qualified service to the customers from all over the world by using modern production and distribution techniques . We empower our production in our center in Eyüb Sultan with your help and the sincerity of our agents in the different cities of Turkey. "In every moment of life" is not just a company slogan. With our ideal products such as loadcell, trade and industrial besides competitive prices and post-sale technical and technological support, "In Every Moment Of Life" shows our love of productivity and technological power for the future.
